Eric Auväärt – Web Developer

ericauv.com | e.auvaart@gmail.com | github.com/ericauv | linkedin.com/in/eric-auvaart | 647-765-1165

Technical Skills

Frontend JavaScript (ES8), TypeScript, HTML5, CSS3, React, Redux, Apollo, React Native
API RESTful, GraphQL, Postman
Backend Node, Express, Apollo Server
Testing Jest, Enzyme, react-testing-library
Design Figma, Adobe CC

Project Experience

SELECTED PROJECTS   **SEP 2019 – PRESENT**

- Developed a mobile application to manage user's house plants and send reminders to water plants using **React Native**, **GraphQL**, **TypeScript**, and **Node**
- Developed an interactive demonstration of the Observer pattern in OOP using **Typescript**, **React**, and **Redux**
- Built a **GraphQL API** that allowed users to convert Youtube playlists to Spotify playlists
- Created user interfaces from mocks/prototypes using **React**

ERICAUV.COM   **OCT 2019 – NOV 2019**

- Developed and deployed a portfolio site using Gatsby (**React**/**GraphQL**) after designing and prototyping in **Figma**
- Improved video loading speeds by leveraging the **AWS** Cloudfront CDN and an S3 bucket
- Championed **accessibility** and responsiveness as core values during development

STORE.ERICAUV.COM   **JUL 2019 – SEP 2019**

- Designed, developed and deployed a fullstack, responsive e-commerce store using **React**, **GraphQL**, and **Node**
- Integrated with Stripe and Mailgun **API**s to process payments and automate emails

Work Experience

SOFTWARE DEVELOPER — EDC   **APR 2018 – NOV 2018**

- As part of an **agile** team, developed a financial forecasting / CRM tool used internationally by 300+ users, using VBA, SQL, and SAS
- Designed and developed two automated email notification distribution tools that exceeded client expectations and saved 20+ hours of work on a monthly basis (using VBA and **HTML**)

Education

BASC (STRUCTURAL ENGINEERING) — UNIVERSITY OF OTTAWA   **DEC 2017**

- Magna Cum Laude (8.63/10), CO-OP
